

Introducing new properties called Barta Park and Barta Signature Series Cabins!

Dear Friends,

Over the past 2 weeks I have had the opportunity to tour our lands throughout New York and Montana with the best known hunter on TV, Mr. Tred Barta. Tred, as you might know, has a regular hunting show on the Versus network every Friday night in which he does the impossible by hunting and killing big game the old way, the hard way - with a longbow.

While on our land tours, Tred found several favorite properties which supported a large number of big game and offered great family values; two things Tred is passionate about. While Tred decides which properties he wants for him and his wife Annie, one thing is for sure, he's working exclusively with Christmas & Associates.

If you've seen Tred's show or have ever had the opportunity to meet him, you've seen first hand that Tred's energy and excitement is unmatched. In our travels, he became very passionate about our efforts to work with everyday folks like you to enjoy the benefits and values of selling land, especially in today's uncertain times. He's a "no nonsense" kind of guy who would only consider doing business with a company with the highest ethics and family values. His standards are high.

In addition, he's deeply in love with his beautiful wife Annie and all the properties he visited had to meet her needs and approval as well. We traveled extensively throughout the Adirondacks, the Tug Hill Plateau in Central NY and the Southern Tier. He enjoyed some great whitetail hunting on opening day here in New York and met many of the hunters we work with. In Montana, he filmed an unbelievable hunt on a 400pt class bull, rode horses on our ranch and selected several favorite spots. He and Annie helped us with some great new ideas for land and camps in New York as well as with our Montana Company, Western Skies Land Company.

With the level of excitement that Annie and Tred had for our lands and our low pricing, it became apparent that our message of quality and value hit home with them and it was something they wanted to share with the everyday sportsman and their families.

After much discussion and hundreds of "land miles", I am extremely excited to announce the offering of selected properties called "Barta Picks" as well as a number of Tred Barta *Signature Series Cabins* designed by Tred and Annie. In the coming weeks, we will introduce a group of new properties on a very large pond with beautiful, ridge-top views called *Barta Park*. In addition, work has begun on three *Barta Signature Series Cabins* in Central NY, hunting unit 6K (his favorite) and two log cabins in the Big Sky Country in Montana.

I want to thank Tred and Annie for their faith in our company and for the opportunity to work with them. I am certain that, with their high standards and family-oriented cabin designs, our customers will enjoy an even better land experience than ever.

If you wish to learn more about *Barta Park* or the cabins designed by Annie, contact us at 800-229-7843.

Sincerely,
Dan Christmas
